Mr. Mooney

Attached is a copy of CRWI's comments on Veolia's draft Title V permit. They have also been submitted to the docket (Comment tracking number 1jx-84j9-dapd). However, it was not clear if these were submitted to the original docket or only to the extension of the comment period. The web site was a little confusing to me. Thus, I am sending them to you also with the idea that getting them twice is better than none.

Please contact me if you have questions.

Thank you.

Melvin Keener

Executive Director
